

Client Agreement

Thank you for choosing and trusting 4 Paws PT for your dog's rehab needs. We strive to provide the highest level of care for your dog.

Duration and long term results of rehabilitation are dependent on the severity of your pet's disease/condition, multi-modal treatment for their disease, frequency of therapy, your ability to maintain compliance with a home exercise program and weight management.

I have read this statement

If you are concerned about your dog's overall health, we encourage you to reach out to your veterinarian. It is outside the scope of practice of a Physical Therapist to diagnose, prescribe medications or order diagnostic imaging.

I have read this statement

Prior to all treatments, it is imperative that you inform 4 Paws PT of any changes in your dog's condition, or concerns you have regarding your dog's comfort or mobility.

I have read this statement

You will be directly involved in the treatment sessions with your dog. There may be times you will be needed to encourage or provide assistance with positioning or exercises. For their own safety, children under the age of 12 will not be allowed to be in the immediate treatment area. We kindly ask that you limit your cell phone use during the treatment session so as to fully focus on your dog.
